

## Connecting to HCC Wireless – Staff, Faculty and Students with Droid Devices

Staff, Faculty and Students should always be connecting to the wireless network labeled: **HCC-User**.

On a phone, tablet or laptop, choose the network **HCC-User**.

*Note: each device will look slightly different. The images seen are from a Samsung smartphone.*

\*If you've previously connected to HCC-Guest, you will have to "Forget" or "Remove" the network so that it does not try to automatically connect.

Make all the settings match:

**EAP method:** PEAP

**Phase 2 authentication:** MSCHAPv2

**CA certificate:** Pick "Do not validate" from the drop down

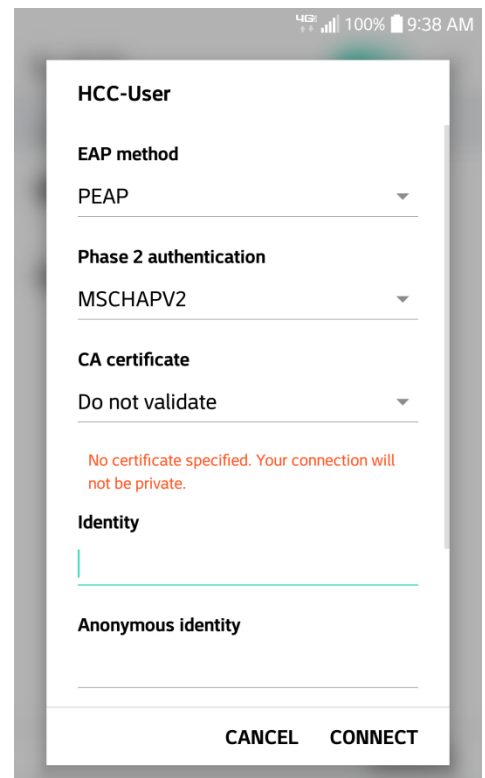

**Identity:** HCC account username

**Anonymous identity:** Leave blank

**Password:** HCC account password

**Connect**

Your device will now remember this connection for the future.
