

Shriners Hospitals for Children in Springfield is looking for a student to intern under the direction of the Regional Director of Information Technology.

Responsibilities:

Desktop Refresh – Imaging new computers, transferring data from old to new.
Tracking progress and making sure out of lease computers get sent back.
Help with support tickets – Mostly how-to calls, printing, phones, possibly resetting passwords, break/fix.
Help with projects as needed.

The director will try and make it as informative and challenging as I can so they can get some good experience for their resume.

The candidate will likely need to be tested/updated vaccinations, have a background check performed and have a drug screening.
