They are included as part of the description of all courses meeting Transfer Compact requirements in the course description section of the *College Catalog*. A list of courses by designation appears in that section as well.

Web Supported Courses (designated by “Web Enhanced TBA” or “+” for English 101)

Combine traditional classroom learning with an additional hour or two per week of required web learning. You'll spend most of your time on campus but you will also be expected to access class notes and assignments via the Internet, publisher sites, or Moodle.

Blended Courses (previously designated Brick + Click)

Combine online and traditional classroom learning. You'll alternate between on-campus lecture and online learning, therefore, minimizing your time on campus and commute. When not on campus, you access your class via Moodle.

Spring 2019 Integrative Learning Courses (ILE)

NOTE: Please check HCC's Online Services for the most up to date courses that fulfill Integrative Learning requirements.

ONLINE LEARNING

What You Need to Know About HCC Online

We would like to invite you to join HCC Online. At HCC you can complete your entire degree online or you can choose to take some of your courses online. In order to take online courses, you should have basic computer skills and access to a computer with Internet.

Online courses are not self-paced. They follow the same academic calendar as on-campus courses. Students are expected to log in and start coursework the first day of classes. All of our online courses are a-synchronous, which means you don't have to meet at a predetermined time. You complete your coursework on your schedule. Each course outlines the attendance policy and participation requirements in the syllabus.

Where do I find my online class? All of our courses run in Moodle (<https://moodle.hcc.edu>). Moodle is an online learning environment where you interact with your instructors and peers, and where you find the course materials, syllabi, assignments and readings, etc. You

can explore and familiarize yourself with Moodle in our Learn Moodle practice course.

Are Online Courses Easier? Not really. You should expect to complete the same amount of work as normally required in an on-campus course. For example, for a 3 credit class, you are expected to be online working at least 3 to 5 days a week.

Most courses require a textbook. Make sure you have your textbook for the first day of classes. A link to our virtual College Store is available in Moodle.

You may be taking your classes online, but you are never alone. All our academic support services are available to you: tutoring (online tutoring), library online services, academic advising, the help desk and MERC, which are students helping students.

For Information about Moodle, eTutoring and Online Library Services, visit us at hcc.edu/online

ENG 102 HON: Composition II 3 Credits

In this course, we will examine literary works that explore a range of compelling human themes: love, romantic relationships, passion, creativity, happiness, and suffering. The first half of the course will examine Johnson's *We: Understanding the Psychology of Romantic Love*; the latter will Schlenk's *The Reader*, Coetzee's *Disgrace*, related essays, one short dramatic work and poems. Note: Mature themes and content, including depictions of sexuality.

Prerequisite: ENG 101, Honors Program entrance requirements or by permission of instructor

HON 204 Ideas That Change The World [B] 3 Credits

This course is a discussion-based honors seminar where students will examine groundbreaking ideas that have shaped our global world. The primary texts used in the course will be influential works that raise issues of enduring importance for humanity. Throughout the semester, students will also inquire into their own potential for transformative creativity, innovation, and leadership. As an interdisciplinary seminar, this course illuminates ideas that cross the disciplinary boundaries of the natural sciences, humanities, and social sciences. Some of the fundamental questions we will inquire about are: Why do some ideas become influential? What social conditions tend to foster creative thinking? Under what circumstances can creativity transform societies? Across disciplines, what do innovators have in common?

HON 206 Ecosocialism or Ecocide? The Challenges of Environmental Ethics and Politics in an Age of Ecological Catastrophe 6 Credits

The multifaceted environmental crisis we see around us today, as perhaps exemplified most dramatically in global climate destabilization, results from capitalism's tendency to view the nonhuman natural world as a resource for the extraction of economic value and a repository to externalize production costs. This Honors Colloquium will pose a question equal to the crisis facing us and the rest of nature: Ecosocialism or Ecocide? The alienation of nature and of human beings compels us to rethink the economic, social, political, cultural, and environmental norms of capitalist society. In order to propel this rethinking of the capitalist social formation, our inquiry will be informed by a variety of sources, including indigenous knowledges, ecofeminist critiques, classic works in political economy, and current scholarship in ecosocialist political ecology. Please join us as we explore both the contours of the planetary ecological crisis and various ecosocialist responses to it.

HON 206.65 Persistence of Reality 6 Credits

Einstein said that "reality is merely an illusion, albeit a very persistent one." If reality is an illusion, then... it isn't real, and if reality lurks within illusion, then how do we look for it? Just as Alice travels down the rabbit-hole into Wonderland—a land of logical nonsense and deliberate contradictions—our learning community will make a journey to examine the multiple dimensionality of life. Hidden below the surface of things, we'll discover ambiguity and double meanings everywhere. We'll have to pause and question our own preconceived ideas about reality, what we know, and how we know it, or whether we know anything at all. We may truly be confused at times, but as we persist we'll find ourselves arriving at another dimension, one where new ways of seeing and understanding are possible. While Alice attends mad tea parties and quirky croquet games, we'll pause to marvel at the garden before us: perfectly ordered patterns and shapes, mirrors and symmetry. We'll play in the garden for a while and then we'll meander to Flatland, a world bound to only two dimensions, and to Arcadia, where space and time travel are possible. Here, we'll stumble upon some intricate and eerily beautiful patterns named fractals and the self-symmetry they display. Oh, we'll also run into some chaos, but don't worry; we'll make it back okay—a bit wiser, perhaps, and with a different understanding of the beauty that surrounds us. Possible texts include Abbott's *Flatland*, Capra's *The Web of Life*, Carroll's *Alice's Adventures in Wonderland* and *Alice Through the Looking Glass*, Lightman's *Einstein's Dreams*, Stoppard's *Arcadia*, Fadiman's *The Mathematical Magpie*, Brown's *Verses and Universe*, Robbins' *Skinny Legs and All*, Borges' *Labyrinths*, Boyd's *Brazzaville Beach*, Shakespeare's *The Tempest*, García Márquez's *One Hundred Years of Solitude*, Woolf's *Orlando*, Hesse's *Siddhartha*, and Lao Tzu's *Tao Te Ching*. Prerequisite: Honors eligibility and permission of instructor.

LC 101 Speaking Your Mind 6 Credits

You are what you speak. But we are not truly expressing ourselves, and speaking the truth, until we've found our voice: the tone, style, tenor, pitch, and personality we use to express ourselves. This LC combines COM 150 Public Speaking and PSY 110 Introductory Psychology to help you find your voice both academically and personally as you design and deliver informative and persuasive speeches about psychological matters. By understanding your own and others' thoughts, actions and motivations, you can appreciate multiple points of view and have a better understanding of the human experience. Join us as you cultivate your ability to listen to the world around you and find the freedom to speak, express, and let yourself be heard, informally and formally. Prerequisite: ENG 101 eligibility

LC 102 She Persisted: Exploring Women's Lives through History and Acting 6 Credits

Because I am a woman, I must make unusual efforts to succeed. If I fail, no one will say, "She doesn't have what it takes." They will say, "Women don't have what it takes." – Clare Boothe Luce

Women's marches of 2017. Second Wave feminism. Rosie the Riveter. Surviving the Great Depression. The fight for the vote. Triangle Factory Fire. Anti-lynching campaigns. Slavery. Native American resistance. Throughout American History, women have persisted by negotiating the often oppressive political, social, economic, and cultural forces that shape their lives. Integrating the study of history and acting techniques, we will bring to life the stories of specific women in order to better understand the diversity of all women's experiences. We will explore the ways in which notions of gender differences have changed over time and how women both created and responded to shifting and contested cultural, political, and social roles. Some of the major themes include the differences among women in class, race, ethnicity, and sexuality, the construction of gender, women's roles in family and community, various movements for women's rights, women and reform, and women in the work force. Class format will include interactive discussion, critical reading and writing, improvisational techniques, and performances of monologues and scenes

LC 103 Tiny House = Expansive Vision 7 Credits

The world-wide "power rush" is on! Tree hugging aside, countries, economies, and industries must learn to thrive on renewable energy if they do not want to choke on fossil fuel thanks to its diminishing supplies and soaring demands. Therefore, long term sustainable solutions are to harness and use carbon-free energy especially in the area of residential housing design. In other words, viable life styles and competitive economies can subsist only on renewable energy. This vital role that clean energy will play on Earth necessitates the urgent need for a clearer understanding of its forms, powers, and legacies. This LC offers a scientific overview of renewable energy resources and their application to green building design while reading stories of human mindsets towards and experiences with various energy sources. LC 104 Who Gets to Be Captain America? An Exploration of Difference 6 Credits

Many of us grew up learning that the United States was a 'melting pot' of difference. Or we were told that it was a 'mosaic' where differences did not melt, but were shaped into a beautiful whole. Or perhaps we learned that the United States was 'over' difference, that we are now happily 'post-racial,' or 'post-feminist,' or 'post-PC.' In this learning community, we will not settle the question of which ideas of American diversity and identity are correct. We will, however, ask how various conflicting ideas about diversity and assimilation have worked their ways into our national consciousness; and we will also learn about visions of difference that tend to be erased from our national conversations. Through readings in anthropology and literature, we will investigate how various kinds of difference have been, and continue to be, (re)created--and hidden--in American cultural life. In fact, we will learn how difference is as American as apple pie, rock & roll and cultural appropriation.

LC 105 Final Project: Death in Art and Literature 6 Credits

Bite the big one, bite the dust, buy the farm; kick the bucket, pass away, shuffle off this mortal coil. Death is a part of life and is one of the great themes in art and literature: images and stories from prehistory to the present day encode our concerns with mortality. In this course, we will undertake a diverse survey of the language, images and artifacts that have been created by people of different times and places to seek solace and make sense of our inescapable end. Questions to be considered include: What happens when we die? Can we prepare ourselves for death? Will science and technology ever "cure" death? Is it ever right to end a life, including one's own? What comforts us when we lose a loved one, or face death ourselves? Can confronting death help us live better lives?

LC 106 "If you don't have the stories": Native American History and Literature 6 Credits

This course treats major themes and issues in the history of red/white contact in the Americas from the arrival of Columbus to the present. We will examine clashes in the worldviews of all participants in the conflict, beginning with origin myths, considering documents of early conflict, through the Indian Renaissance of the 1970s, to the ongoing 21st century Native defense of Turtle Island as most recently demonstrated by the Standing Rock Sioux protests against the Dakota Access Pipeline in North Dakota. Core themes of war and peace, "savage" and "civilization," religion and spirituality, and "destruction of" vs. "harmony with" nature that bring the course to life in ways that are not only relevant but urgently needed for meaningful understanding of the daunting challenges that America faces in the world today. *Prerequisite: ENG 101*

LC 107 Aliens, Anti-Citizens and Identity 6 Credits

This learning community will examine marginal and alien citizenship statuses as they are situated within contemporary capitalist society in the United States. Whereas the U.S. Declaration of Independence asserts that "all men are created equal," we will interrogate that statement by studying identities and personages that are explicitly treated unequally in the law and in society. From immigrants to gang members, from tipped workers to queer persons, from presumed terrorists to disenfranchised ex-cons, we will examine the deliberate incorporation of people in society into lower classes and statuses. We will also explore some of the structural causes of the massive waves of immigration occurring across the globe, such as anthropogenic climate destabilization and exploitative global political and economic forces that produce new forms of precarious labor most often performed by immigrants and the disenfranchised. Please join us as we investigate the intersections of capitalism, identity construction, and social reproduction as they are presently manifested in the transformations of contemporary social relations.

LC 200 Journey 6 Credits

The word "journey" means to go somewhere. The great American road trip has been a rite of passage for generations. Perhaps space tourism is on, or over, the horizon. Yet, is it possible to travel through time? We can do it already in our dreams and imaginations, but what would be the implications of actual time travel? How about journeys between cultures? They can be exciting but also difficult.

Migration and immigration are journeys of our times. Journeys into our own selves, into the depths of our own psyches, can be enlightening but also terrifying. A quest is a special kind of journey, whether to find the Holy Grail or a spiritual guide. A journey with others is a different matter than a journey alone. A journey can be physical, metaphysical, or metaphorical—and if love is involved in a journey, well, it's easy to get lost. This learning community will be a kind of journey itself. It will co-enroll students from two Chinese universities— Tangshan University and Hebei University of Science and Technology—and students from HCC and it will be co-taught by professors from both institutions. The course will include material both from China (in English) and material from western cultures. HCC students will meet in a classroom for 3 hours per week and the rest of the class will be conducted online. You will have a chance to work with Chinese students who speak English and to learn about the idea of Journey 1 in their culture, including in music, art, and calligraphy. We will take some small journeys locally and the class will include literature, philosophy, and film.

SUS 121 Sustainable Watersheds						4 Credits
Water: essential for life on Earth, yet we do so little to assure we will have enough of it where and when we need it. "Sustainable Watersheds" explores water resource conservation and sustainability in an urban watershed setting. The course will contain a sizable student-research/inquiry component, including an urban water-system design project. Students will work in collaborative teams to explore/research an aspect of watershed sustainability science. Field/lab exploration of local watersheds (e.g. Tannery Brook; Westfield and Connecticut Rivers) will be an integral part of the course.

SUS 125 Urban Agriculture						4 Credits
To grow or not to grow food? This may be out of the question for those living in cities, until now. This course will explore urban setting through the eyes of sustainability. Students will be able to take their surroundings into consideration as sustainable food and farming is taught for city dwellers. Environmental and food injustice are far too common in inner cities and will be challenged in this course. Students will be equipped with the knowledge and experience to begin a new kind of revolution for people. HCC's very own Freight Farm will be						

Prerequisite: you must provide proof you have met prerequisites when registering for classes

the laboratory where students will gain experience with not only growing large amounts of food in small square footage, but also selling and distributing the food amongst the school community. The theories, practices, and politics of urban agriculture will be thoroughly inspected. Political, economical, social, and environmental concepts will be explored, along with planning, development, and management of an urban agricultural system.

11446	SUS 125 .02	Laboratory	Lab	F	10:30am-1:00pm

SUS 127 Small-Scale Livestock Mgmt. 4 Credits

This course provides students with an introduction to sustainable small-scale livestock management with an emphasis on alternative livestock production and marketing systems that deviate from typical or conventional ways of raising livestock. These alternative agricultural practices include organic production, pasturing small flocks and herds, minimal antibiotic use and a connection to local and niche markets. Students will incorporate principles of sustainable agriculture and whole farm planning as they explore the various aspects of managing livestock including breed selection, reproduction, herd health, raising replacement stock, choosing appropriate housing and equipment, managing pasture and feed sources for adequate nutrition and finding appropriate markets and processing facilities.

Events & Information Sessions

Foundations of Health

The Foundations of Health (FOH) degree offers a wide base of courses designed to prepare students for a variety of healthcare options and careers. Working with an FOH advisor, students design the path that best matches their education and career goals, such as earning certification as a nurse's aid (CNA), graduating with a Direct Care Worker or Community Health Worker certificate or Foundations of Health degree, or applying to one of our selective programs such as Nursing or Radiologic Technology.

Information sessions are held monthly, dates and times are listed at www.hcc.edu/infosessions. For more information contact Becky Lewis, 413.552.2426 or Kimberly Slepchuk 413-552-2108 kslepchuk@hcc.edu

Nursing

Learn about HCC's two-year Associate Degree Nursing (RN) program and the Practical Nurse Certificate (PN) program. Be prepared! We'll tell you the application requirements and the process to apply.

Application deadline for Fall 2019 class: Feb. 1, 2019

Prospective students must attend an information session to apply to this program. Dates and times are listed at www.hcc.edu/infosessions.

Radiologic Technology

Learn about HCC's Associate Degree in Radiologic Technology curriculum and the skills and knowledge necessary to enter medical imaging professions. Find out early what the application requirements are and the process to apply.

Application deadline for Fall 2019 class: Feb. 1, 2019

Prospective students must attend an information session to apply to this program. Dates and times are listed at www.hcc.edu/infosessions.

For more information, contact Holly Martin-Peele at 413.552.2460 or hmartin@hcc.edu

Veterinary Technician

Learn how HCC's Veterinary Technician A.S. degree trains paraprofessionals who assist veterinarians as technicians or serve in a variety of positions in animal research laboratories, state animal shelters, or other facilities where animals are kept. Review the application requirements and process.

Application deadline for Fall 2019 class: Feb. 1, 2019

Prospective students must attend an information session to apply to this program. Dates and times are listed at www.hcc.edu/infosessions.

All info sessions are free and open to prospective and current students, parents, and the public unless otherwise noted. For more info, visit www.hcc.edu/explore or call 413.552.2321.

If you have a disability and may require accommodations in order to fully participate in these sessions, please contact the Office of Students with Disabilities and Deaf Services at 413.552. 2417.

(DON 238)

Tutoring by appointment for all levels of ESL.

ALANA Men in Motion Program

Academic support and mentoring for empowerment and academic success for HCC's self-identified African American, Latino, Asian American, Native American and multiracial men.

Academic Internships

Want to gain hands-on experience in your career field before you graduate? Why not start with an **academic internship!**

An academic internship is an opportunity to:

- combine classroom learning with real-world experience related to your major
- solidify your career goals
- earn credit
- build a professional network

Requirements to participate vary depending on your academic program. For more information, contact the Experiential Learning Coordinator, Andrea Picard: Marieb 231, apicard@hcc.edu, or 413-552-2342.

Plan ahead - preparation is required the semester before the internship takes place.

and Financial Aid*

Student Loan Online Chat Sessions

Are you having trouble understanding whether or not your financial aid award includes a loan? Do you have questions about your loans? Are you concerned about repayment and need assistance?

To assist you in understanding and managing your student loan debt the Financial Aid office is hosting online chat sessions. The chat sessions are held every Tuesday from 2-3 p.m. with the exception of Tuesday holidays and unexpected shutdowns of the college. Join the conversation at <http://www.hcc.edu/loan-chat>.

Student Accounts Online Chat Sessions

Questions about tuitions and fees, billing process and/or payment options? Or just have general questions about Student Accounts?

Chat with a Student Accounts Representative every Tuesday from 2:00 – 3:00 p.m. with the exception of Tuesday Holidays and shutdowns of the college. Please log on to <https://hcc-uga.chat.edu.185r.net/client/>

Get Help Filling Out Financial Aid Forms

Do you need help completing online financial aid requirements? The Financial Aid office will be holding weekly Financial Aid labs to assist students with FSA ID creation, filing the FAFSA (Free Application for Federal Student Aid), accepting/declining financial aid awards and loan requirements such as entrance counseling and loan agreement/MPN. Please visit www.hcc.edu/fafsa or the Financial Aid Office, FR 201, for lab time, locations and checklist to ensure you are prepared to attend.

Credit Course Enrollment Information

New and Re-Admit Students

Students new to HCC and students who have been away for two or more semesters must apply for admission at hcc.edu/apply. All degree or certificate seeking students must take the placement test or show proof that they meet eligibility requirements for courses they are interested in. HCC uses the College Board's Accuplacer test for placement into math and English or you may provide proof of successful completion of college-level English and math. After you have completed the placement test, you will meet with an advisor to register for classes.

Current Students

Registration for current students begins October 24. Students may add and drop classes through January 31, if you have earned fewer than 12 college-level credits at HCC or your cumulative GPA is under 2.5, you must obtain a registration code from your assigned advisor in order to register. HCC provides academic advising to all current students. To look up your advisor's name and contact information, login to your Degreeworks worksheet and locate your advisor in the Student View section or login to your Online Services at www.hcc.edu/myhcc. Students who have earned 12 or more credits at HCC and have a cumulative HCC GPA of 2.5 or higher may register, add and drop classes through Online Services or on campus without a registration code.

COURSE CANCELLATION

Low enrollment can necessitate course cancellation. HCC will attempt to notify students whose class has been cancelled and help them choose another course or obtain a refund. Completing your course registration as early as possible helps the college avoid cancelling classes.

If the college cancels a course, 100% of all tuition and fees are refunded.

GED and HiSET Testing, CLEP Testing, and Adult Basic Education

HCC's HiSET Testing Center, the largest HiSET testing center in Massachusetts, offers a variety of testing to provide an opportunity to earn your high school equivalency certificate. HCC offers HiSET preparation programs and other services in the afternoon, evening, on-campus, and at the HCC Adult Learning Center at Picknelly Adult & Family Education Center in Holyoke.

HCC offers College Level Examination Program (CLEP) testing, a national examination system administered by the College Entrance Board. The two types of CLEP examinations are administered throughout the year: the general, and subject examinations based on typical colleges courses throughout the country. Score successfully on the tests to receive college credit.

The Ludlow Area Adult Learning Center, a community-based Adult Basic Education program, offers day and evening classes in basic English (beginning through advanced levels) for speakers of other languages; tutoring; computer skills workshops; assistance with citizenship issues; transition to college services; career and academic counseling; and referrals.

High School Equivalency Tests

HCC provides an opportunity to earn your high school equivalency certificate through the HiSET or GED tests. For more information on the HiSET, go to hiset.ets.org. For more information on the GED, go to <https://ged.com>.

College Level Examination Program

CLEP tests help you receive college credit for what you know, regardless where you learned it—on the job or through life experience.

Cost for each CLEP test is:

- \$35 registration fee (money order only, payable to Holyoke Community College)
- \$87 CLEP testing fee (paid on test day with debit or credit card only)

For more information go to www.hcc.edu or call CLEP Testing Services, 413.552.2112.

Tests are administered at HCC's Holyoke campus, Kittredge Center, second floor.

FINANCIAL AID

Frost 201, 413.552.2150

HCC students may apply for financial aid at <https://fafsa.ed.gov>. Certain academic standards must be maintained in order to receive these funds. Additional information is available in the Financial Aid Office.

Office hours are

- Mon - Thurs 8:30 a.m. – 6:00 p.m.
- Fri 8:30 a.m. – 4:30 p.m.

Financial Aid

The majority of financial aid funds at HCC come from federal and state programs for which eligibility is need based. Students must reapply for this aid each academic year. State-funded programs require the student (and parent) to have been Massachusetts residents for at least one year before the start of the school year. All awards are subject to the availability of funds and changes in federal, state, and college regulations, policies and procedures.

All students at HCC benefit from the low community college tuition and fees made possible by substantial support from the Commonwealth of Massachusetts. In addition, many students or families who are taxpayers

also benefit from the American Opportunity Credit, the “Lifetime Learning Credit,” the deductibility of student loan interest payments, and/or other federal tax breaks. For detailed information you can read IRS Publication 970, Tax Benefits of Higher Education, which you can download from the web site <https://www.irs.gov>.

Scholarships

HCC has many scholarships available for eligible students. To apply, go to www.hccscholarships.org.

Academic Information

Academic Probation and Dismissal

Academic probation or dismissal for students is determined by the cumulative Grade Point Average (GPA) and Quality Hours, as follows:

Cumulative Quality Hours	Cumulative GPA Required
Below 9	No minimum
9 - 30	1.75
Above 30	2.0

Probation: The first time a student fails to earn the minimum required GPA as listed above, he/she will be placed on Academic Probation.

Dismissal: At the end of two semesters of probation, if the cumulative GPA remains below the minimum standard, the student will be dismissed. However, the student will not be dismissed if, during a probationary semester, he/she earns a GPA of 2.0 or better.

Readmission: A student dismissed because of the lack of academic progress may petition for readmission by contacting the Academic Affairs office 413.552.2770.

Auditing a Course

Auditing a course means attending but not being responsible for written work such as assignments and tests. Audited courses do not earn credits. If a course requires a prerequisite(s), student must provide evidence of meeting the prerequisite(s). To audit a course, complete an Audit Petition at the Student Records office at the time of registration or within the first week of the semester. The cost to audit a course is the same as enrolling for credit.

Credit by Examination

HCC grants credit for certain Advanced Placement, College-Level Examination Program (CLEP), and DANTES examinations. For more detail on minimum score requirements and credit awards, go to hcc.edu/credit.

Dean's List

Students of superior academic achievement are recognized through the Dean's List. Each time a student accumulates 12 credits, that student is placed on the Dean's List if his/her GPA is 3.2 or higher for that group of 12 credits. Each group of 12 credits is evaluated sequentially; no carryover of credits is allowed.

Developmental Courses

Courses numbered below 100 are developmental and are not applied toward degree requirements. Developmental course credits and grades are not included in credits earned and are not calculated into the Grade Point Average.

Fresh Start Option

Once in a lifetime, after a three-year minimum absence from HCC, a student with a Grade Point Average of less than 2.0 may elect Fresh Start. This eliminates the effect of all past course work from the GPA. Past HCC courses may be accepted into the Fresh Start program in accordance with the college's transfer credit policy. For information, contact Academic Affairs, Frost 317, 413.552.2770.

GENERAL INFORMATION

After your records are reviewed and all requirements have been met, your name will be placed on the graduation list. Congratulations!

Incomplete Grade

The grade of "I" is given to a student who for good reason (e.g., illness) is unable to complete a major part of the work in a course. It may also be given at mid-semester indicating that work has not been completed. The student has until mid-semester of the following semester to complete work for courses **other than those that serve as a prerequisite for another course**. Unless waived, prerequisite course requirements must be completed before the first day of the following semester/Intersession. A grade of "F" and 0.00 grade points will be recorded for work not completed as required.

Prerequisites

When enrolling for a course with a prerequisite not taken at HCC, students will be responsible for presenting a college transcript which documents that the prerequisite has been met.

Repeated Courses

Students may repeat courses at HCC in an attempt to earn credit or improve their Grade Point Average. Credit may not be earned twice for a repeated course. All grades, including those in repeated courses, will appear on transcripts. The most recent grade will be included in the student's GPA calculation. The previously recorded grade will be excluded from the GPA, but will still appear on the student transcript. **Financial aid can only pay for one repeat of a previously passed course.** This repeat policy applies even if you did not receive financial aid when enrolled in the course in the past.

Transferring Credit Into HCC

The college accepts transfer credit from other regionally accredited institutions of higher learning for courses which may be applied to your declared program of study if the courses are similar in content to those offered here. When transfer credit is awarded, the grades earned are not averaged into your Holyoke Community College GPA. Credit is granted for courses carrying a grade of C- or better, regardless of the cumulative GPA at the previous institution. The college also grants credit for military courses which meet guidelines issued by the American Council on Education (ACE). For foreign transcripts, the college will provide you with a list of agencies that evaluate foreign credentials for a fee; the credit award is based on the evaluation which the college receives directly from the agency and also on the applicability of the course work to your program. The limit of transfer credit from all sources, including CLEP, is in accordance with the college's 30-credit residency requirement. However, you may request a waiver of this requirement by submitting a Request for Exception to Graduation form to the Office of the Vice President for Academic Affairs. Waivers are granted on a case-by-case basis by the Vice President for Academic Affairs.

To submit your transcript for review, contact your previous institution and request that an official transcript be sent directly to the following address: Student Records Office, 303 Homestead Avenue,

Holyoke, MA 01040. FAXED transcripts are not accepted.

Weather Cancellations

Students will be notified of class cancellations due to inclement weather via HCC's Rave emergency alert system, which sends text, phone and email messages. Cancellations are also posted on the HCC website and Facebook page and announced via local radio and TV stations. Evening class cancellations will be announced by 5 p.m. Information is also available by calling the weather hotline at 413.552.2900, extension 1418.

Benefits, Tuition Waivers, Third Party Billing

All tuition waivers must be received by Student Account Services located in Frost 201 before the start of the semester.

Veteran/National Guard Benefits

FR 232, 413.552.2265

Eligible veterans, active duty personnel, reservists, disabled veterans, and dependents of deceased or 100% total and permanent disabled veterans may qualify for monthly educational benefit payments from the Veterans Administration. Certain eligible veterans who reside in Massachusetts are also entitled to a tuition waiver for classes. Students with only tuition waivers are responsible for all fees other than tuition. Veterans may also be eligible for health benefits to satisfy HCC's requirement of health insurance coverage. Massachusetts National Guard members in good standing are eligible for a tuition and fee waiver for classes.

Senior Programs

Frost 273, 413.552.2829

Massachusetts Residents 60 years of age or older have the opportunity to take HCC credit classes on a space-available basis through HCC's senior waiver program. Seniors pay a non-refundable fee of \$50 per semester regardless of the number of credits taken. Additional fees may apply. Seniors can only register for courses two weeks prior to the start of the semester in which they are planning to enroll. Registrations will not be accepted after the end of add/drop week. For information, contact Jossie Valentin at 413.552.2829, Frost 273.

State Employee Tuition Waiver

State employees taking credit courses are responsible for Education Service Fees (ESF) and any other fees not covered by the tuition waiver. Day tuition is waived at 100%, evening, weekend, online and Intersession tuition is waived at 50%. HCC reserves the right to charge fees to state employees in special courses involving trips, materials, supplies, etc. Present waivers at the time of registration. Waivers are not accepted by telephone, fax, or mail.

Third Party Billing (Company-Agency Payments)

Third party registrations should be submitted in person at Student Account Services located in Frost 201. HCC requires an original letter from the company or agency on their official letterhead including student full name, last 4-digits of the Social Security Number, HCC Student Identification Number, course(s), total or maximum amount being paid by the company or agency, and third party contact information. If you, the student, expect the bill to be partially or fully paid by a third party agency or company, and/or a private scholarship, you must still make payment arrangements with the Student Accounts Office by the due date of your bill. If payment in full is not submitted to Student Accounts Office by the third party within 30 days from the bill date, you will be responsible for paying any outstanding charges. If payment in full is not received by the due date of the billing statement, past due collection procedures will apply as stated on the Student Account Balances/Past Due Bills section, page 58. For questions, please email studentaccounts@hcc.edu or call 413.552.2204.

Categorical Waivers

The Categorical Tuition Waivers are designed to provide financial support to individuals who might not have the opportunity to achieve higher education, without such assistance. Please visit hcc.edu/osfa for state detailed information. The tuition waiver should be submitted in person at Student Account Services located in Frost 201 along with the application for the Massachusetts Categorical Tuition Waiver. The application is available at the Student Accounts Office.

Department of Children and Families (DCF) Adopted Child Tuition Waiver and Fee Assistance Program (subject to state budgetary appropriation)

The program is designed to lessen the financial burden on adopting parents in the Commonwealth. This waiver extends eligibility to all children and young adults, age twenty-four or under, adopted through the Department of Children and Families by state employees or eligible Massachusetts residents, regardless of the date of adoption. Please visit hcc.edu/adoption for state detailed information. The tuition waiver should be submitted in person at Student Account Services located in Frost 201. The waiver is applicable only to State Supported course(s).

Department of Children and Families (DCF) Foster Child Tuition Waiver and Fee Assistance Program (subject to state budgetary appropriation)

The program is designed to provide financial support for higher education to foster children in state custody who were neither adopted nor returned home. The DCF Foster Child Tuition Waiver and Fee Assistance Program provides a valuable resource for them and will help reduce their educational loan debt. Please visit hcc.edu/adoption site for state detailed information. The tuition waiver should be submitted in person at Student Account Services located in Frost 201. The waiver is applicable only to State Supported course(s).

SERVING THOSE WHO SERVE

When you're a student at Holyoke Community College, you are a part of a community that always has your back. We offer several campus resources that veterans might find useful:

The Bunker

The Bunker is a student resource center and study lounge for any currently enrolled student with military experience. The area is organized by military or veteran student volunteers, called CQ's (Charge of Quarters), and is open only to military or veteran students as a quiet study space or meeting area. Provided in the area are computer workstations, tables and chairs, a printer and small kitchenette. Located in Frost 149.

HCC Military Club

The HCC Military Club is here to ease your transition to college life. Club membership is open to all veterans of the armed forces, serving members of the National Guard or Reserves, active duty service members, spouses, dependents, and friends.
