

HOLYOKE

HCC offers spring courses

The spring semester officially began at Holyoke Community College on Jan. 17, but prospective students have two more opportunities to start classes in February and March.

Spring session II classes begin Feb. 6. Spring start III classes begin March 20.

The Feb. 6-start classes run for 12 weeks. March 20-start classes run for seven. All spring semester courses conclude by May 4.

Students who enroll for spring session II or III have the opportunity to take a variety of classes in a wide array of academic areas and can

earn as many as four credits per course for a lab science, such as biology or forensic science.

These accelerated spring courses are being offered in person and online in anthropology, biology, business administration, communication, conflict resolution and mediation, culinary arts, economics, English, English as a Second Language, forensic science, geography, health, history, human services, law, management, math, medical assisting, music, nutrition, psychology, and sociology.

To get started, go online to hcc.edu/flexible-spring-starts.

Students must submit proof of COVID-19 vaccination before being allowed to register for on-campus classes.

Students who plan to register only for online or remote classes do not have to submit proof of COVID-19 vaccination.

The admissions and advising offices are located on the first floor of the Campus Center and are open weekdays from 8:30 a.m. until 5 p.m. (4:30 p.m. on Fridays).

For more information, call the admissions office at 413-552-2321, send email to admissions@hcc.edu or go online to hcc.edu.

"General Biology: Introduction to Cell Functions," a lab science, is one of the flex start classes being offered this spring at Holyoke Community College. Here, three HCC students work on an experiment in a biology lab. (PHOTO COURTESY HCC)
