Course Registration Information

Community Education courses fill fast. We suggest you register at least two weeks before the class start date, or by registration deadline if noted. If space is still available in a class, HCC can accept registration for most classes up to the business day before a class starts.

CLASS SCHEDULES

Class dates are subject to change. Please check the website (www.hcc.edu/bcs) for the latest updates, and be sure to check with the instructor on the first day of class. Classes are not held on state and national holidays, and individual instructors may make other adjustments.

FEES

Fees for materials are now included in the tuition price unless specifically noted.

REFUND POLICY FOR NON-CREDIT COURSES

Courses with six or more meetings:

1. By the Friday before the first class meeting, 100% of all tuition, less \$30.
2. After the Friday before the first class meeting but before the third class meeting 50% of the course cost.
3. No refund will be granted after the start of the third class meeting.
4. Courses with five or fewer meetings:
5. Refunds are available only if the student withdraws by the Friday before the first class meeting, less 25% of course cost, but not to exceed \$25.
6. Youth Programs: By the Friday before the first class meeting, 100% of tuition. No refunds will be granted after the start of the program.

Please note that a \$20 fee will be charged for returned checks. All returned checks not made good will be referred for collection.

COURSE CANCELLATION

Low enrollments can necessitate course cancellations. HCC will attempt to notify students whose class has been cancelled and help them choose another course or obtain a refund. Your completion of course registrations as early as possible helps the college avoid cancelling classes.

If the college cancels a course, 100 percent of all course costs are refunded.

BENEFITS, TUITION WAIVERS, AND THIRD PARTY BILLING

State Employee Tuition Waivers

Present waivers at the time of registration. Waivers are not accepted by telephone, Fax, mail, or online. For non-credit courses, full-time state employees, their spouses and dependent children up to age 25 are eligible for tuition remission of 50 percent of tuition only for any non-credit course(s) or program(s). Tuition waivers will be honored so long as the minimum number of full-tuition-paying students per class has been met. Some exclusions apply.

Third Party Billing (Company-Agency Payments)

Please submit, by mail or in person, an enrollment form for each student along with an original purchase order or letter on company-agency letterhead including the student name(s) and the amount to be paid.

BUSN 038
Passive Income 101: Create Products That Sell While You Sleep (including 50 product ideas)

CRN 26215 SEC 51 Jul 17 F 5:00 p.m.–7:00 p.m.

Unlock the secrets to earning money around the clock. This dynamic class teaches you practical strategies and step by step tools to develop, launch, and automate income generating products that keep working for you with minimal ongoing effort. You'll learn how to identify profitable opportunities (50 ideas included!), build irresistible offerings, master automated sales and marketing systems, and scale your income streams—all while protecting your work and overcoming common hurdles. Get ready to transform your ideas into a powerful, passive income machine that works day and night. Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
 Fee: \$35.00

BUSN 039
Start Your Own Online Business: A Beginner's Guide (including 25 top online businesses)

CRN 26222 SEC 51 Jul 22 W 5:00 p.m.–7:00 p.m.

Looking for ways to make money online? Turn your ideas or homemade products into income by starting an online business. You will learn how to: find a gap in a niche market and fill it; build your own website, and market your business effectively (including SEO) so potential customers will find you; take care of business forms and taxes; create multiple sources of income (including Affiliate commissions). You'll also get info about the 25 most popular online businesses to start. Informative handouts for future use are included in class fee. Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
 Fee: \$35.00

BUSN 041
Create Your Own Merch (Design, Sell, and Ship Like a CEO)

CRN 26220 SEC 51 Jul 21 T 7:00 p.m.–8:00 p.m.

Have a great idea for a Tshirt, sticker, or hoodie? Turn your creativity into cash! In this class, you'll learn how to design your own merch that people actually want to buy, set up an online shop, and ship your stuff like a pro. You'll learn the ins and outs of branding, marketing, and a taste of what it's like to run your own business—CEO style. Informative handouts for future use are included in class fee. The webinar login information will be

emailed the day before class. Instructor LeeAnne Krusemark
 Fee: \$25.00

 **Career**

CRER 003
Get Paid To Talk / An Introduction to Voice Over

CRN 26134 SEC 51 Aug 10 M 6:00 p.m.–8:30 p.m.

From audio books to advertisements and beyond, we encounter recorded voices everywhere! In this onenight, live online class, your instructor will take you behind the scenes in the voice over field for a fun and realistic look at how the voice over field really works. You'll gain inside perspective on developing skills, and how to leverage your voice's strengths and interests, and more. Because this class is live, you'll have the opportunity to ask questions! Additionally, there will be a chance for a one on one script read with the instructor. Class presented via Zoom.
 Fee: \$45.00

CRER 095

Launch Your Pet Sitting/ Dog Walking Biz

CRN 26218 SEC 51 Jul 20 M 7:00 p.m.–8:00 p.m.

Love animals and want to earn extra cash? Turn your passion for pets into a thriving side gig! This fun, interactive class is perfect for teens who dream of walking dogs, feeding fish, or caring for cuddly cats while making money. You'll learn the basics of pet care, how to build trust with pet owners, set your rates, promote your services, and handle tricky situations like nervous pets. You'll get cool handouts to keep and use anytime—no extra cost. The class is led by a longtime teacher, and a young pro who started pet sitting at 13 and knows the hustle inside and out. We'll send the webinar login info the day before, so you're all set to join!
 Fee: \$25.00

EXPR 004
Writing for Children: A Beginner's Guide

CRN 26217 SEC 51 Jul 20 M 5:00 p.m.–7:00 p.m.

Step into the magical world of children's and YA literature—and learn how to captivate young readers like a pro! This dynamic class dives deep into the hottest market trends, agesmart storytelling techniques, and unforgettable character creation that speaks directly to kids and teens. You'll also get insider tips on crafting submissions that grab the attention of kidlit magazines and publishers. Whether you're dreaming of picture books or YA novels, this is your launchpad to creating stories that kids won't put down. Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
 Fee: \$35.00

EXPR 068
Writing for Online Blogs, Magazines and Websites

CRN 26206 SEC 51 Jul 16 Th 5:00 p.m.–7:00 p.m.

You don't need a journalism degree or previously published articles to write for anyone's online blog, magazine, or website. Some opportunities offer exposure, while many pay well -- \$1 a word and more. In this fast-paced session, you will learn how to: find ideas, sources, and more than 1,000 opportunities that pay, conduct interviews and create interesting content, protect your copyright, write query letters, and then use this credibility to sell other articles or even your self-published novel. Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
 Fee: \$35.00

EXPR 069

Creative Writing 101: A Beginner's Guide

CRN 26204 SEC 51 Jul 14 T 7:00 p.m.–8:00 p.m.

You don't need a degree in creative writing to be an exceptional writer and get paid for it! Anyone with a passion for writing can learn and develop their fiction and non-fiction writing skills. Whether you're writing from your own life experience, creating new worlds, or informing readers about important information, this class will teach you about the different forms of creative writing, the top 10 creative writing tips for beginners, as well as how to brainstorm for new creative writing ideas, bring your words to life with engaging descriptions, develop your own writing style, and how to get paid for your creative writing. Informative handouts for future use are included in class fee. Class is delivered via Zoom and a link will be shared the day before the class. Instructor LeeAnne Krusemark
Fee: \$35.00

EXPR 070

Write Your First Novel (in 90 Days!)

CRN 26216 SEC 51 Jul 17 F 7:00 p.m.–10:00 p.m.

This intensive course provides a schedule of crafting a novel from start to finish, which you can finish in as little as 90 days! This class will also help you stay motivated throughout the journey. You will learn how to:

- select your novel genre and develop a compelling premise
- create multidimensional characters and immersive settings
- craft a detailed plot outline
- manage your time to keep your writing flow consistent
- combat common roadblocks including writer's block
- master the art of selfediting: refining your plot, and fixing pacing, dialogue, and characterization problems.
- receive constructive criticism from beta readers
- explore publishing options

By the end of this class, you will know how to complete your novel and have the knowledge and confidence to move forward with the publishing process. Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
Fee: \$45.00

EXPR 078

Beginner's Guide to Using FREE ChatGPT (AI) for Writers

CRN 26219 SEC 51 Jul 21 T 5:00 p.m.–7:00 p.m.

ChatGPT (AI) is here to stay and is the future for writers and content creators. Don't be left behind! No prior AI experience required. Do

you want to learn how to incorporate the power of cutting edge technology to gain ideas and inspiration, write web content, articles, and even novels or scripts? In this beginner friendly course, you'll learn how to:

- register for a FREE
- ChatGPT account
- input effective writing prompts to avoid nonsense responses
- build creative content, from stories to marketing copy
- determine its capabilities and limitations
- understand ethical/legal considerations using ChatGPT

There's no doubt ChatGPT and similar AI systems will force the job market to evolve. It's crucial for everyone to adapt, learn new skills, and be open to working in collaboration with AI, so start building your expertise in the world of ChatGPT now! Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
Fee: \$35.00

EXPR 079

Writing Short Stories: A Beginner's Guide

CRN 26205 SEC 51 Jul 15 W 5:00 p.m.–7:00 p.m.

Writing short stories (1,000–30,000 words) helps you discover your writing voice and how to convey your ideas. You'll learn how to bring your story to life with an engaging plot, as well as character development, action, and dialogue. You'll also learn the technical parts of crafting a short story, including structure, important character moments, and progression in the story. You'll also know what to do with your short story once completed, including editing, proofing, and publishing options. Informative handouts for future use are included in class fee. The webinar login information will be emailed the day before class. Instructor LeeAnne Krusemark
Fee: \$35.00

EXPR 087

FOOD 123

Fun Bites with Chef Swanigan (Ages 9-16)

CRN 26203 SEC 51 Jul 6-10 M-F 9:00 a.m.–3:00 p.m.

CRN 26208 SEC 52 Jul 13-17 M-F 9:00 a.m.–3:00 p.m.

Food is about adventure, fun, and feeling great. Think of its fuel for your epic days of hanging with friends and chasing dreams! Join us for an exciting week of hands-on culinary fun, where young chefs will discover the joy of cooking delicious, easy to prepare meals to share with family and friends. Participants will work together to chop, season, cook, and taste a variety of recipes all made from scratch. Each day introduces new menu themes, ingredients, and techniques designed to build confidence in the kitchen. Along the way, students will learn essential skills such as kitchen safety, proper sanitation, and effective teamwork. By the end of the week, your young chef will take home a collection of new recipes, improved culinary skills, and plenty of flavorful memories to share with others. The menu for each day will be as follows:

- **Monday** Meatball Subs, French Fries, Fresh Fruit Salad
- **Tuesday** Crispy Chicken Sliders, Sweet Potato Fries, Watermelon
- **Wednesday** Build Your Own Taco, Elote (Mexican street corn)
- **Thursday** Baked Mac and Cheese Bowl, Popcorn Chicken (choice of tossed sauce BBQ or buffalo)
- **Friday** Personal size pizza choice of toppings, Wing dings, Zeppole

Please alert us to any food allergies upon registration & bring a food safe container each day for leftovers to go home. Dropoff no earlier than 8.45am & pickup no later than 3.15pm, both signed for by parents or guardians only. No Uber, Lyft or Taxis permitted.

Fee: \$425.00

FOOD 125 Cooking without Borders with Chef Vargas-Gonzalez (Ages 9-16)

CRN 26211 SEC 51 Jul 6-10 M-F 9:00 a.m.–3:00 p.m.
CRN 26212 SEC 52 Jul 13-17 M-F 9:00 a.m.–3:00 p.m.

Get ready for a week overflowing with food, fun, and friendship! In this lively hands-on camp, young chefs will team up to chop, stir, and create tasty dishes from around the world. Each day brings a new theme and a chance to discover fresh ingredients, cool cooking techniques, and the joy of working together in the kitchen. From mastering favorite classics to exploring global flavors, students will learn kitchen safety, teamwork, and a dash of creativity along the way. By week's end, they'll walk away with new cooking skills, delicious recipes to show off at home, and plenty of tasty memories to share. It's teamwork, taste, and tons of fun—all rolled into one delicious camp experience! The menu for the week will be as follows:

- **Monday** Grilled Chicken Caesar Wraps with French Fries
- **Tuesday** Coconut shrimp Curry with basmati rice & garlic naan
- **Wednesday** Personal Pizza (pizza dough from scratch, sauce and topping)
- **Thursday** Brunch for Lunch Whole Chicken wings & Waffles and fresh fruit salad.
- **Friday** Puerto Rican Rice, Baked Chicken thighs & fried sweet plantains

careertraining.hcc.edu

Accounts Payable Manager Certification (Exam Cost Included)

This course will prepare you for the Institute of Finance & Management's (IOFM) Accounts Payable Manager (APM) certification, the gold standard within the financial operations industry. You will gain key AP skills, including leadership, internal controls and oversight, and process improvement. With the world of financial operations evolving at the speed of technology, certified APMs are in demand. In fact, more than 25,000 of your peers have advanced their careers with IOFM certification. Whether you're new to AP or have been in AP for years, this Accounts Payable Manager course is designed for you.
3 Months / 30 Course Hrs
\$1399.00

Accounts Receivable Manager Certification (Exam Cost Included)

Staffing trends and continued organizational demand will continue to drive the need for highly trained accounts receivable professionals. Cash management is a top concern for financial operations teams and their CFOs, who are worried about whether enough money is arriving to meet the needs of the business, customers' experience dealing with the company, protecting the company's cash from fraud, and the cost of performing these processes. Accounts receivable is a key strategic role player in managing the organization's cash flow, from setting customers' credit terms to collecting payments.
3 Months / 35 Course Hrs
\$1399.00

ACSM Personal Training

This online instructor-led course prepares you for the American College of Sports Medicine (ACSM) Certified Personal Trainer (CPT) certification exam. Additional supplemental documents are provided complimentary to you for use in preparing for the ACSM-CPT exam. The course was developed under the guidance of outstanding faculty drawn from colleges/universities, the allied health/medical field, and the personal fitness training profession. The course includes presentations and outlines, specialized exam preparation materials, and 145+ practice test questions. ACSM-CPTs work with healthy individuals and those with health challenges who can exercise independently to enhance their quality of

life, improve health-related physical fitness and performance, manage health risks, and promote lasting, healthy behavior changes.
6 Months / 150 Course Hrs
\$1595.00

Adobe Certified Professional in Visual Design (Vouchers Included)

In the fast-paced world of visual design, mastering Adobe software is a necessity. Our Adobe Certified Professional in Visual Design course focuses on equipping you with comprehensive training in three key tools: Photoshop, Illustrator, and InDesign. For those interested in certification, the course also prepares you for the relevant Adobe certification exams. This graphic design course employs a multi-faceted learning approach, including short explanations and demonstrations, hands-on exercises, video reviews, and quizzes. Each module is designed to offer you a comprehensive understanding of the software, covering both foundational elements and the nuanced specifics that could appear on the certification exams. By the end of this online visual design certification course, you will be proficient in Photoshop, Illustrator, and InDesign—with a portfolio to back it up. Equip yourself with the tools and experience to excel in the visual design industry with our Adobe Certified Professional in Visual Design course.
6 Months / 180 Course Hrs
\$1895.00

AutoCAD Basics

This AutoCAD Basics course will introduce you to the fundamentals of using AutoCAD for Computer-Aided Design (CAD). You will start at the very beginning—creating drafting symbols, kitchen and bath fixtures, a floor plan, and bringing everything together on a deliverable printed sheet. You will also create an abbreviated set of construction documents, such as a floor plan, roof plan, structural foundation plan, electrical plan, and building elevations. During this online AutoCAD course, you will learn about paper/model space and create deliverable sheet files. If you need to get an introduction to AutoCAD, this AutoCAD course for beginners will get you up—and running. This class is hands-on, real-world applicable, and includes optional projects.
3 Months / 60 Course Hrs
\$1723.00

Certificate in Healthcare and Eldercare

This course provides you with the skills needed to become a practicing mediator specializing in healthcare or eldercare disputes. It provides training in the INACCORD conflict resolution model, and offers you the chance to practice your skills through simulated roleplaying exercises. Additional specialized training will cover healthcare and eldercare topics including bioethics, family-provider disputes, elder abuse, and common billing and insurance conflicts. Upon successful completion, Mediators Without Borders will award you individual professional certificates in Mediation, Applied Mediation Practice, Healthcare and Eldercare Mediation, and Professional Healthcare and Eldercare Mediation. A final exam is optional upon completion of the course.
6 Months / 240 Course Hrs
\$3999.00

Certified AWS Developer (Voucher Included)

In this online training course, you will learn how to use the AWS SDK to develop secure and scalable cloud applications. You will also explore how to interact with AWS using code and discuss key concepts, best practices, and troubleshooting tips. This course can be used to prepare for the AWS Certified Developer – Associate exam. This course offers enrollment with a voucher. The voucher is prepaid access to sit for the certifying exam upon eligibility.
3 Months / 40 Course Hrs
\$2195.00

Certified Information Systems Security Professional (CISSP)

The course delves into everything you need to master to pass the CISSP certification exam, including security governance principles, risk management concepts, asset security, security architecture and engineering, communication and network security, identity and access management, security assessment and testing, security operations, and software development security. Completing your CISSP training online and earning your CISSP certification is ideal for you to advance your career in information security and risk management while also validating your ability to effectively design, implement, and manage best-in-class cybersecurity operations.

6 Months / 100 Course Hrs
\$2234.00

Certified Paralegal (Voucher Included)

Paralegals play a vital role in the legal profession. These qualified professionals take on a variety of tasks ranging from legal research to drafting legal documents in traditional law office settings and in the corporate, government, and public arenas. Formal training is a critical part of preparing for a career as a paralegal. The Paralegal course will help you gain the skills you need to enter the paralegal workforce. You will learn how to conduct legal research and legal interviews, how to perform legal analyses, and more. As you prepare for your paralegal career, you will also receive soft skills training to increase workplace effectiveness. The course concludes with a capstone project. You will first create a complete litigation file that includes: a legal analysis brief, an investigative report, client

interview checklist, intake memo, complaint, legal research, and interoffice memorandum of law. Then, you will learn how to create a strong resume that encompasses your specialized skill set and showcases the impact you would make for your next employer.

12 Months / 225 Course Hrs
\$3150.00

Certified Residential Interior Designer

Elevate your design aspirations and transform spaces with our Certified Residential Interior Designer course. Ideal for aspiring and experienced designers, this interior design class empowers you to expand your knowledge, advance your career prospects, and enhance your industry standing. Throughout this interior design certification course, you will explore the elements of interior design in great depth and investigate ways to combine these elements to meet your clients' needs and preferences. From key design elements and principles to the history of styles and furnishings from different eras to reviewing materials, finishes, color, and textiles, you will leave this interior design course with a strong fundamental overview of interior design essentials. Beyond your interior design training, you will learn how to build a successful design business, cultivate your client base, and interact with clients in various scenarios appropriately. This program will help you hone your craft through its enriching, practical coursework intended to help you fine-tune your skills and give you real-life scenarios to discover your personal branding and style.

Solar Energy Training

The solar industry is experiencing exponential growth, and recent federal legislation, such as the Inflation Reduction Act and the Infrastructure Investment and Jobs Act, is driving even greater demand for solar energy. Our online solar energy course is designed to provide comprehensive training in this booming field, covering key concepts that will equip you with the knowledge and skills needed to excel. In this solar training course, you will discover the factors driving this industry's growth and demand, including government policies, environmental concerns, and the decreasing cost of solar panels. Understanding these solar industry drivers will help you shape the future of solar energy and stay ahead in this evolving field. You will learn about the advantages and disadvantages of solar photovoltaics (PV) and gain insights into the positive environmental impact, energy independence, and cost savings associated with solar PV systems. You will also explore the challenges and considerations involved in their installation and operation. Diving into the essential components of a solar PV system, such as solar panels, inverters, charge controllers, and batteries, you will understand how they work together to capture, convert, and store solar energy—ensuring optimal performance and efficiency. The basics of electricity and safety protocols will also be covered in this solar energy training course. Learn about electrical concepts like voltage, current, and power and how they relate to solar PV systems to create a secure work environment, so you can mitigate potential hazards on the job site.

3 Months / 40 Course Hrs
\$1195.00

Solar Panel Installer Training

The Inflation Reduction Act has allocated \$370 billion towards supporting clean energy and climate action, including installing solar panels. In the first quarter of 2023, 54% of all new electricity-generating capacity additions were photovoltaic solar (PV) projects. With the industry's upward trends and the increased demand, the solar market is expected to triple in size by 2028. This solar panel installer training course is designed to provide students with in-depth knowledge and hands-on training to become proficient in the installation and design of PV systems. Within the comprehensive curriculum of this solar installation course, you will cover various solar PV installation and system design aspects, including the step-by-step process of installing solar panels and how to ensure proper placement for optimal energy production. You will also cover the installation and integration of essential balance-of-system components, including inverters, charge controllers, and battery banks. A thorough understanding of both grid-tied and off-grid systems will enable you to confidently design and install solar PV systems that meet specific needs and

requirements. Throughout the course, you can access interactive modules, instructional videos, and real-world solar installation training case studies to enhance your understanding of the concepts and principles. By the end of the solar installation course, you will have acquired the necessary skills and knowledge to install solar panels and design efficient solar PV systems. You will be well-versed in industry best practices, safety protocols, and relevant codes and standards and pursue careers as solar PV installers, system designers, or technicians.

Upon completion, you will receive a certificate of completion. Although Everblue's certification differs from the North American Board of Certified Energy Practitioners® (NABCEP®), it meets the education requirement set by NABCEP.

3 Months / 40 Course Hrs
\$1395.00

Solar Design Training

With the solar market expected to triple by 2028, the demand for professionals with expertise in solar photovoltaic (PV) design is skyrocketing. This Solar Design Training course focuses on practical skills essential to the job, so that you can excel within a career in solar system design. With a customer-centric approach, you will learn to tailor your designs to meet specific customer needs, considering their energy requirements, preferences, and unique project requirements. You will also gain expertise in defining project criteria and documentation by learning to establish clear criteria for system capacity, location, budget, and timeline and create detailed documentation outlining project specifications and objectives. Throughout this solar design course, you will delve into mechanical and electrical design principles and learn how to select appropriate equipment, such as solar panels, inverters, mounting structures, and wiring. With a focus on understanding how to optimize energy production and system reliability, you will discover custom system layouts, shading analysis, and equipment compatibility. From start to finish, this solar PV design course provides you with the necessary knowledge to comply with local building codes, utility regulations, and interconnection requirements—so you can prepare and submit all required documentation. Furthermore, you will be able to future proof your solar system designs by implementing monitoring systems for real-time tracking and analysis of system performance for proactive maintenance and optimization.

3 Months / 20 Course Hrs
\$1295.00

Online PROFESSIONAL DEVELOPMENT

for K-12 Educators

Designed by renowned educators - VESI online, interactive courses are convenient, superior quality courses packed with practical applications for the classroom. Earn Massachusetts PDPs in these accredited, self-paced and user-friendly programs. You'll have telephone access with instructors during "office hours" and email access with a guaranteed 24hour response time. Once HCC receives your registration, we will communicate your registration to VESi. Courses are offered in both undergraduate (UPDL) and graduate (GPDL) professional development levels.

VESI Education (PreSchool, K12)

EDUC 001

Advanced Classroom Management

Focuses on cognitive and cognitivebehavioral interventions with emphasis on teaching students how to change and manage their own behavior. Knowledge and understanding of traditional behavioral concepts and strategies is required. Strongly recommended that participants have completed an introductory behavior management course prior to taking this course.

EDUC 002

Attention Deficit Disorder

Achieve a better understanding of ADD and intervention strategies to facilitate positive student change. Covers the history of the disorder, accepted methods to assess and identify students with the disorder, and various methods, medications, and strategies that are currently used to treat it. For situations in which services beyond what can be provided in the classroom are required, the referral process for getting help for the student will be addressed. Reference materials include a list of resources for both teachers and parents.

EDUC 003

Autism Spectrum Disorder: Information & Effective Intervention Strategies

This interactive computer-based instruction course is designed to help you achieve a better understanding of Autism Spectrum Disorder, of intervention strategies to enhance communication and learning, and of methods for teaching more conventional behaviors. Autism Spectrum Disorder provides information about the characteristics of the disorder, learning styles associated with the disorder, communication weaknesses, and various intervention strategies that have proven to be successful when working with autistic students. The course helps you comprehend why individuals with Autism Spectrum Disorder act the way they do and what you can do to enhance more appropriate behavior. This course also lists resources for educators, related service personnel, and parents who would like more help or information on autism.

EDUC 004

Behavior is Language

Learn behavioral techniques and intervention strategies that remediate disruptive behaviors, reduce power struggles, increase classroom control, and reduce your workloads and burnout. Helps you, as well as students, find creative, effective solutions to behavioral problems.

EDUC 005

Child Abuse

Encompasses the identification of physical, emotional, sexual, and substance abuse; the impact of abuse on the behavior and learning abilities of students; the responsibilities of a teacher to report or provide assistance to victims of abuse; and methods for teaching students about abuse and its prevention. Discusses family dynamics and working with parents and community agencies. Emphasis is on understanding the special learning needs of the abused or neglected child, and how to meet those needs in the classroom.

EDUC 006

Drugs & Alcohol in Schools

Presents a contextual framework for understanding what students may be experiencing through their own substance use or the impact of substance use around them. Includes a historical perspective along with descriptions of the complex biological, psychological, and social factors that comprise the disease of addiction.

EDUC 007

Educational Assessment

This course is designed to further develop the conceptual and technical skills required by teachers to help them identify their educational goals and implement meaningful instructional strategies for effective learning by students with special needs. The focus of the course is on assessment for instructional programming and will outline procedures for designing or selecting, administering, and interpreting a variety of informal assessment measures typically used in schools. The presentation of assessment information in an acceptable format to parents and teachers is also addressed.

EDUC 008

Harassment & Bullying

Discusses definitions and the personal, social, and legal ramifications associated with sexual harassment, bullying, and cyberintimidation, explore preventative strategies as well as how school staff can address these issues when they occur. A clear understanding of what constitutes harassment and the harmful effects of harassment on people and institutions is essential to providing a safe and inclusive school environment for all.

EDUC 009

Working with Students with Special Needs in Classrooms

This course is designed to help special and general educators gain a better understanding of inclusion, one of the current educational reform movements that advocates educating students with disabilities in the general education classrooms. Upon course completion, the learner

will be able to define key concepts and terms, identify and describe federal legislature and court cases, and list and describe the federal definition of students entitled to special services. This course will also discuss the roles and responsibilities of educators in providing special services to students educated in inclusive classrooms.

EDUC 010

Infant & Toddler Health

Understand and identify your role as a child care provider, educator, and early childhood professional. Includes researchbased information on child development, attachment, temperament, and curriculum, and resources for teachers and parents who would like more help or information.

EDUC 012

Reading Fundamentals 1

The first in a threecourse series on effective reading instruction, this course provides background on Reading First as it applies to No Child Left Behind federal legislation. Discusses scientifically based research as it applies to phonetically based instruction, assessment, and evaluation; explores myths and misconceptions concerning reading instruction and remediation; and presents an evaluation checklist to assess the effectiveness of your current reading program.

EDUC 013

Reading Fundamentals 2

Designed to lay the foundation for effective reading instruction, this course will teach you about the elements of effective instruction and the importance of reading instruction. Note: It is recommended that the Reading Fundamentals courses be taken sequentially; however, it is not mandatory that all three courses be taken.

EDUC 014

Reading Fundamentals 3

This course will focus on learning to read, reading to learn, and an introduction to reading assessment. As part of these key areas of reading instruction, the five elements of effective

reading instruction will be highlighted, including definitions, implications for instruction, and future directions. Note: It is recommended that the Reading Fundamentals courses be taken sequentially; however, it is not mandatory that all three courses be taken.

EDUC 015
Talented & Gifted

Includes identification, referral, assessment, and major program models and methods of differentiating instruction to meet the rate and level of learning of those students in the regular classroom. Also includes current law, the history of the exceptional in education, and resources for teachers and parents who would like more information about the talented and gifted.

EDUC 016
Teaching Diversity

Understand how learning is influenced by individual experiences, talents, disabilities, gender, language, culture, family, and community values, and identify differences in approaches to learning and performance, including diverse learning styles and ways in which students demonstrate learning.

EDUC 017
Traumatized Child

Identify and effectively teach students affected by stress, trauma, and/or violence. Discusses the factors that exist in families and communities where stress and violence are common. Emphasis on understanding and meeting the special learning needs of the student in the regular classroom, and working with parents and community agencies.

EDUC 018
Understanding Aggression

Addresses to the hate, fights, anger, crimes committed and the victims in our schools and society, considers the many forms of aggression, both criminal and otherwise, its costs and motivation, its perpetrators and targets, its likely and unlikely locations, its impact on our schools and children; and, most especially, its several causes and promising solutions.

EDUC 019
Violence in Schools

Provides a foundational understanding of violence and the motivational purposes behind aggression, and investigates the impact of the media, community, and family. You'll receive information on national resources for parents and teachers.

EDUC 020
Teaching Elementary Math Conceptually: A New Paradigm

This course is designed to expand your methodology for teaching Mathematics. The course will explore an innovative teaching model that incorporates strategies for teaching concepts constructively and contextually. The goal is for you to gain a deeper understanding of the underlying concepts of various math topics and to explore the principles of teaching those concepts to learners. This course will focus on the topics of number sense, basic operations, and fractions.

EDUC 022
Differentiated Instruction

Designed to give you an understanding of the framework of and need for creating supportive learning environments for diverse learning populations. In this course you will learn what is meant by Differentiated Instruction (DI) and the common myths associated with creating the differentiated classroom. We will discuss the legal, theoretical, and pedagogical foundations in the field of education that support the utilization of differentiated instructional practices and principles. We will reflect on best practices and national trends in the design of the educational setting to meet the needs of a diverse learning population.

EDUC 024
Reading & Writing Content

Reading & Writing in Content Area offers instruction in teaching reading and writing in various subject matter fields at the secondary level. The material stresses the skills of vocabulary building, comprehension, and writing, as well as methods for motivating adolescents to read and write. The course also provides information on recognizing reading difficulties, assessing textbooks, and the integration of reading strategies within a content area. The strategies taught are aligned with the Praxis Reading Across the Curriculum test guide and the Reading in the Content Area national standards.

EDUC 025
Try D.I.

Try DI! is designed to provide you an opportunity to learn about an instructional framework, Differentiated Instruction (DI), aimed at creating supportive learning environments for diverse learning populations. Students will be presented a method for selfassessment of the extent to which their current instructional approach reflects the perspective, principles, and practices of the DI approach. The course reflects an approach that aligns the principles of DI with the practices of DI. The concept of a "theory of action" will also be provided within a DI context. The course has also been designed to introduce students to a range of strategies associated with a DI approach. Strategies included in this course have been selected on the basis that they are effective in the widest possible range of educational K12 settings.

EDUC 026
Implementing Core Standards

This course, Understanding & Implementing Common Core Standards, has been divided into four chapters. The organization of the course

covers the rationale for and design of the Common Core State Standards, the “Common Core Mindset” practitioners need for successful implementation, and what specific actions can be taken for deeper implementation across settings.

EDUC 031

Response To Intervention

RTI is a process schools can and should use to help students who are struggling with academics or behavior. Even though RTI is primarily linked to special education and the early identification of learning problems, RTI is not just for students in special education. RTI is for all students and is based on the premise that a student might be struggling due to instruction or the curriculum in the past, or in the current classroom. Every teacher will have students who are struggling and whether it's short term or long term, RTI is a valuable tool.

EDUC 034

Six Traits

This course will discuss why writing is important and why teachers should include writing as often as possible in all content areas. The course will also include practical applications for assessing and teaching writing, including teaching students how to self-assess their own writing. The first chapter of this course will discuss why teaching writing is important and give you an introduction to the Six Traits of Writing Model. Through chapters 2, 3, and 4 we will discuss the elements of the Six Traits of Writing Model. Throughout those elements we will look at practical ways to use this model in your classroom.

EDUC 035

Secondary Math

This course will explore an instructional methodology that incorporates strategies for teaching concepts, constructively, and contextually. The goal is for you to gain a deeper understanding of the underlying concepts of various math topics and explore the principles of teaching those concepts to learners. The course will also explore teaching methodologies that support many federal and state standards. This course will focus on the topics of integers, fractions, factoring, and functions.

EDUC 037

Language Acquisition for ESL

Language Acquisition was written to help teachers understand concepts and terms related to educating students whose first language is not English. This course discusses developmental theories and how they apply to English language learners. The focus of this course is on the process of second language acquisition and the role of the classroom teacher. Included in this course is information about the legal obligations of schools and teachers to provide services and about the types of programs schools might provide. Included is information on communicating with parents/guardians

EDUC 038

Methods & Materials for ESL

Methods & Materials was written to help teachers understand concepts and terms related to educating students whose first language is not English. This course discusses how to apply instructional methods in creating lessons; how to create a motivating and caring learning environment; how to integrate teaching reading, writing, speaking, and listening skills; how to differentiate instruction for English language learners; and how to identify culturally appropriate curriculum and instructional resources.

EDUC 039

Building School Communities

This course helps teachers build genuine bonds between themselves and their students and between students and their classmates, to create “kindred classhomes” with a foundation of acceptance, respect, and shared purpose. For many of our students, our classrooms may be a safe, nurturing refuge...the eye of the hurricane they experience as life. This course will help you develop strategies, rituals, and environmental design skills to create these safe havens of learning: kindred classhomes where students and teachers work together in synergistic ways that benefit all members of the school family. Students will learn how to differentiate for classroom management and discipline similarly to differentiating for students’ diverse academic needs. One size does not fit all, but all sizes can fit together.

EDUC 040

Supporting At-Risk Young Learners

This course is designed to help Early Childhood Educators gain strategies to reach and teach young children who are at risk of not meeting their potential. Participants will learn the internal and external factors that place a child at risk, how

heredity and environment affect a child’s development, the characteristics of various risk factors, and interventions for each risk factor. A major emphasis will be on the family’s influence on the child’s development and how Early Childhood Educators can work with families to support their child’s growth in all areas of development.

EDUC 041

Social & Emotional Learning: Optimizing Learning Environments with Life Skills

Socialemotional learning (SEL) comprises life skills that are foundational to motivation in the classroom and classroom management. Students who have strong social and emotional skill sets will be more successful in the classroom and in life. In this course, students will first examine what SEL is, including the research foundational to SEL. Then students will examine the five SEL competencies—self-awareness, selfmanagement, social awareness, relationship skills, and responsible decisionmaking—and how each of these can be developed first in the classrooms and then in the schools to optimize learning environments. While examining the five SEL competencies, students will also investigate how these skill sets can affect families and communities.

EDUC 042

Educational Technology: Effective Use of Technology in Classroom

The course, Educational Technology, has been divided into four chapters. The first two chapters, Introduction to Educational Technology and Digital Literacy, provide foundational concepts that must be considered to effectively integrate technology into your classroom.

Start your tech career with Upright technology bootcamps.

Tech Hub Provides Free Digital Skills and Technology

Tech Foundry, in partnership with Holyoke Community College, has opened the new Tech Hub at the HCC Picknelly Adult and Family Education Center, located at 206 Maple Street, Holyoke.

TECH HUB OFFERS:

- free services and classes
- digital skills training workshops
- walk-in IT support and troubleshooting
- Internet connectivity consultations
- computer distribution (free in limited quantities)

Tech Hub is a program of the Springfield-based nonprofit Tech Foundry, the regional leader in IT workforce development and training. Tech Hub was started in 2023 as part of a state-wide initiative of the Western Massachusetts Alliance for Digital Equity.

Tech Hub will be open noon to 6 p.m. on Tuesdays, Wednesdays, and Thursdays, with classes held from noon to 1 p.m. and 5-6 p.m.

Visit techhubmass.net to learn more, sign up for classes, and access Tech Hub help-desk support.
